

**REPORT OF THE JURY MEMBERS
SBTC DESIGN COMPETITION - STAGE II JURY**

On the 8th of January 2008, an eminent jury (names enclosed) met from 10.15 to 18.00 in the evening. This was the second round of reviewing the designs which were short listed from eleven entries received. The jury applied their minds and reviewed each design and compared all the designs.

The jury unanimously agreed that the project presented by Urjamitra (Prof. Kolhatkar and team) was architecturally meritorious and addressed all the required strategies in a thorough and scientific manner. The jury recommends that SBTC Project Team commission Urjamitra headed by Prof. Kolhatkar to take up the project.
